

Chances are, you need life insurance.

Know why it's important to have life insurance protection:

Life insurance helps ensure that if something unforeseen should happen, short and long term financial obligations could be met. It is important to take steps to make sure your family would be financially prepared if you were no longer there. Your loved ones may rely on you to help keep the household running and handle expenses like:

- Mortgage or rent payments
- Credit card bills
- Child care/education fees
- Food
- Utilities
- Transportation

When life changes, so should your life insurance:

Keep in mind some common life events that could cause you to need more protection as your financial commitments and lifestyle changes. Getting married, having a baby, buying a home—these are all events that could call for adding more life insurance protection.

How much coverage is enough:

Many people are surprised to learn that they don't have enough life insurance to cover the many expenses their loved ones may face. MetLife believes that 60% of your annual income times the number of years to retirement gives you a reasonable estimate of the amount of life insurance you should have.

The benefits of MetLife Group Life insurance:

Purchasing additional life insurance, over and above the basic coverage in your employer provided plan, may help lend greater financial security and peace of mind.
