The Launch Team (Ages 8-12)

The Launch Team is a youth running program that trains youth to run the REVEL Big Cottonwood Half Marathon on Saturday, September 14th. Coaches run alongside the participants on neighborhood sidewalks around CTEC in Sandy or on a school track. Their mileage increases each week until race day. This 12-week program meets twice a week, and all participants learn the basics of long-distance running, nutrition, and strength work. The Launch Team has trained hundreds of youth (as young as 8-years-old) to complete a half marathon!

Participants run, run/walk or walk at their own pace. We do not encourage any competition within our program. We want to instill a love of running to all our participants that will last a lifetime.

The \$99 program fee includes: Entry into the REVEL Big Cottonwood Half Marathon, a Launch Team training shirt, 12-weeks of training, a training plan to follow on days we do not meet and personalized coaching. Water will be provided during and after each run. Participants must come in good running shoes and attire, bring a water bottle if they want, wear sunscreen, and be ready to run in all weather conditions unless it is lightening out.

rayna@thelaunchteam.org
www.thelaunchteam.org
 435-557-0033

In August (Date TBD), participants will complete a 10K race down Emigration Canyon. More information on this will be provided. There will be no training on Thursday, July 4th or Monday, September 2nd. Training will be in the morning from June 24th thru August 15th and then it will change to evenings on August 19th thru September 12th due to school starting for Canyons District.

Dates & Times: 06/24/2019-08/15/2019 - Monday and Thursday - 7:00 AM and then from 08/19/2019 - 09/12/2019 - Monday and Thursday - 6:00 PM

End times will vary on miles being run that day and participants pace.

<MISSION:CODE>
Programming skills for life

laurie@madsciencegslc.com
801.292.8646 or 801.916.5832

Mission: Code is a unique Summer camp experience that allows kids, *age 8-11*, to learn essential coding skills while also engaging in active games and hands-on learning. Kids will develop computational thinking and problem solving skills in an online game environment where you give a robot a set of instructions to follow in order to solve the level. Each coding session provides kids with a fundamental skill set including algorithms, functions, relative directions and sequences. The combination of online activities paired with engaging offline activities like scavenger hunts, code-cracking mysteries and team robotics challenges that keep kids active and reinforce coding skills is a winning formula for fun!
